

Celeste Langlois

Marguerite's Place Daycare

Nashua, NH

- “ Celeste started working with the infants in the daycare as an intern from Rivier College in 1999. In April 2008, she replaced founder Sister Elaine Fahey, GNSH as the Director. ”
- “ Working with children from homeless families can be a daunting challenge... From the very beginning, Celeste recognized the positive values and sense of wholeness provided by this program. ”
- “ Celeste and her staff create a safe and caring, nurturing and supportive environment for the children and their parents with a focus on the child, child development, and parenting. ”
- “ Although I retired as the CEO of the agency two years ago, I often think about how many children will have a different life due to the nurturing embrace provided to them in their childhood by Celeste. ”
- “ The program is not a "quick fix". In fact, some children are born while their mothers are in the program and they stay in the daycare until they start public school... Celeste has played an integral role in their development and in shaping their lives. ”
- “ Celeste is a role model to others in the field of early care and education. ”
