

# Karen Crew

*Milton Learning Center*  
Milton, NH

- “ As Liam's mother, I knew he needed something I couldn't give him. Not sure what to do, I signed him up for preschool... Karen taught the other students to accept Liam for his differences, to nurture him, and help him. She taught Liam how to be a little boy. ”
- “ The students, typical or not, thrive under her guidance. Many exceed the expectations of therapists. Parents are in awe of the difference in their child's manners in school and at home. ”
- “ I have seen more parents turn to Karen when they need advice on any number of things about preschoolers, and she always has a new strategy for them to try. My husband and I secretly nicknamed her 'The Preschool Whisperer.' ”
- “ Many parents have complained the school does not have a circular driveway for quick, easy drop off. I love the fact I need to bring my kids upstairs and I have a moment to talk to teachers, make friends with other parents, and know what my child's day is like. It was culture shock when my son went to the public school's summer program. I had no idea what he did all day. ”
- “ Karen Crew works harder than anyone I know. In the midst of a recession, Karen worked with various scholarships, and the board of directors to help families struggling with tuition costs. ”
