

# Unified Early Childhood System to Promote Child Development and School Success

# ECD System Transformation Framework

<p style="text-align: center;"><b>Components</b></p>	<p style="text-align: center;"><b>What System Do We Have Now?</b></p> <p style="text-align: center;"><b>ECD 1.0</b></p>	<p style="text-align: center;"><b>What System Are we Trying to Build</b></p> <p style="text-align: center;"><b>ECD 2.0</b></p>	<p style="text-align: center;"><b>What System Do we Need to Design for the Future</b></p> <p style="text-align: center;"><b>ECD 3.0</b></p>
Logic Model	5 to zero, looking back	Zero to 5, transactional	Optimizing Development
Organization of ECD Producing Sectors	Isolated sectors	Cross-sector paths	Integrated Systems
Organization & Delivery of Individual Services	Fragmented	One stop	Integrated network
Education & Workforce Development	Ad-hoc	ECE workforce & Economic Develop	
Market Structure	Disorganized, fragmented	embedded	
Funding	Silos,	Consolidation, augmentation	New Investment Mechanisms
Planning		City, state, &	National Plan
Regulation & Governance	Fragmented across sectors	Joint planning/ ECCS	Integrated system
Performance Monitoring		EDI, ASQ & PHD	Map Trajectories
